Letter of Recommendation for Players Turf USA

To Whom It May Concern:

On behalf of the Mountains Recreation and Conservation Authority (MRCA), with much sincerity, I write to strongly recommend Players Turf USA for any construction services you may need. The MRCA worked with Players Turf USA on the development of a state-of-the-art artificial turf Futsal Court through NIKE's "Let Me Play" program at the Los Angeles River Center & Gardens. I worked very closely with Mr. Ben Zolfaghari and other Players Turf USA staff for the duration of the construction and during this time they demonstrated a great deal of professionalism, flexibility, communication, dedication, and commitment to serving our needs and the needs of the project.

By working with us to install the artificial turf Futsal Court, Players Turf USA not only helped the MRCA provide an opportunity for Anahuak Youth Soccer Association, a youth soccer league, to utilize the court for elementary-school age children but also helped us to increase the River Center's sustainability. Players Turf USA installed an underground cistern that now captures and collects all rainfall that falls onto the court. The collected water is used for irrigation of the adjacent planted space. The MRCA is very satisfied with the end result of the work that Players Turf USA completed.

I recommend them without reservation and would be happy to elaborate on my evaluation if you wish to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Ana Petric".
